EMPLOYERS' COMPLIANCE WITH THE HEALTH INSURANCE ACT 1970

ANNUAL REPORT 2015

Per Section 20 of the Health Insurance Act, the Bermuda Health Council monitors the extent to which employers are compliant with obtaining health insurance coverage for employees

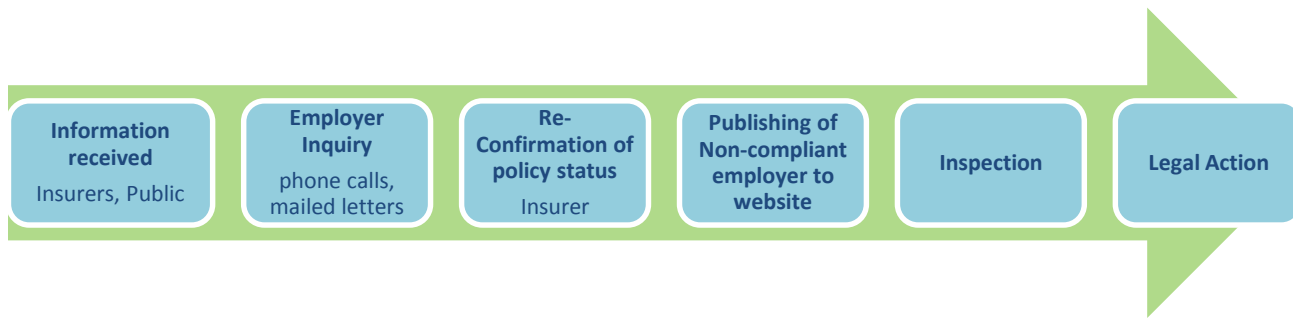

SUMMARY:

- ❖ *1016 employers were investigated representing 3,039 employees*
- ❖ *2 inspections were conducted during the reporting period*
- ❖ *13 non-compliant employers were published on the Council's website (currently 4)*
- ❖ *\$700,348.95 was recovered in premium for the year*
- ❖ *\$215,749.26 was recovered in HID premiums*
- ❖ *No legal action was pursued in criminal court during 2015*
- ❖ *No information was provided by BHB of any persons receiving medical attention without active health insurance coverage throughout the reporting period*

METHODOLOGY:

1. The Health Council monitors employers' compliance with the Health Insurance Act 1970 by investigating queries from the public about businesses with inactive health insurance policies and requiring reporting from local insurers about employers with:
 - Inactive policies (with claims not being paid)
 - Terminated policies
 - New policies
2. Data was provided from the public and insurers for 1st January – 31st December 2015.
3. The Health Council investigates all inquiries and conducts on-site inspections of employer financial and employment records. For persistent non-compliance, the Health Council facilitates legal action in the criminal courts.

RESULTS:

4. Per Table 1 below, in the last four months of 2015, the reported number of non-compliant employers steadily declined although the number of uninsured employees was significant. In January 2015 there were a reported 90 employers without health insurance coverage for 215 employees; in December 2015 there were 78 employers without health insurance coverage representing a 13% decrease from the beginning of the year.

	insureds	115	97	157	241	254	51	292	60	121	80	52	75

5. Of the employers investigated during the year for having inactive health insurance policies, **787 (77%)** settled their arrears premiums and re-established their policies. This resulted in **2,115** employees regaining health insurance coverage as per Figure 2.

6. As a result, a minimum of **\$700,348.95** was recovered in Standard Health Benefit premium. This figure is based on those reported uninsured employees receiving a minimum of 1 month of health insurance coverage (405 employees x \$301.85 = \$122,249; 1710 x \$338.07= \$578,100).

7. Throughout the reporting period, **\$215,749** was recovered alone in health insurance premium to the government Health Insurance Department (HID).

8. Web publication of non-complaint employers on the Health Council website was implemented on 3rd June 2015. Throughout the reporting period, 15 employers were named on the website, with 73% (11) of them becoming compliant.

CONCLUSION:

9. Overall, the number of non-compliant employers continues to decline. The introduction of publishing the names of employers has had a positive effect in reducing non-compliance. The public are reporting employees without active health insurance coverage and employers are responsive to the Health Council’s investigations.
