

FOR IMMEDIATE RELEASE

More People Will Remain Safe Thanks to the Donations of AXA XL, Chubb, Willis Towers Watson, and Zurich for the “Close to Home” Mobile Vaccination Programme

- AXA XL, Chubb, Willis Towers Watson, and Zurich donated pens for the Close to Home Mobile Vaccination Programme to help support and protect public health.
- For more information about the Close to Home Mobile Vaccine Programme, contact the Health Council at 292-6420 or visit www.gov.bm/vaccines.

(Hamilton, Bermuda 7th May 2021) – The Bermuda Health Council thanks AXA XL, Chubb, Willis Towers Watson, and Zurich for the donation of pens for the Close to Home Mobile Vaccination Programme.

This donation represents one of the many contributions of the community in an ongoing effort to support the health and safety of others.

The Health Council is working with the Department of Health and other organizations to coordinate the needs of the community to ensure that everyone has the opportunity to access the COVID vaccines.

“We are trying to make the experience of those who come for vaccinations to be as smooth and pleasant as possible. When reviewing our process, we knew that we could create a better experience for individuals by having pens available that did not need to be shared or wiped off with alcohol between uses. This is not just about serving the residents of Bermuda, but doing it well. So we thank these companies for their contribution of something as useful as pens,” stated **Health Council CEO, Dr. Ricky Brathwaite**.

If you would like to receive more information about the Close to Home Mobile Vaccine Programme, contact the Health Council at 292-6420 or visit www.gov.bm/vaccines.
