

Our Mission To regulate, coordinate and enhance the delivery of health services.

Our Vision To achieve a quality, equitable and sustainable health system.

Our Priorities:

Regulation & Quality

- Enforce regulations and ensure compliance with standards of care and patient safety
- Collaborate with health professionals and businesses to improve regulatory processes and identify areas for improvement
- Conduct regular inspections and audits to monitor compliance and identify potential risks to public health

Audit & Finance

- Ensure the sustainability of the health system by promoting efficiency and cost-effectiveness
- Monitor healthcare costs to ensure affordability and accessibility for residents
- Foster innovation to drive improvements in quality of care

Governance

- Ensure that our governance framework enables effective decision-making and accountability
- Develop and implement policies and guidelines that set standards and promote transparency in the health system
- Provide ongoing support to our staff and Board members to ensure responsibilities are carried out properly
